

# CONTEMPORARY DOORS

Our contemporary doors are made from solid wood. They are supplied pre-hung into the frame with a Secured by Design locking system, handles and a full factory stain or paint finish

Contemporary door sets are supplied with the following:-

- Full factory finish (choice of colours)
- Pre-hung into frame
- Multipoint locking system Secured by Design
- Long Pull handles or euro handles
- Stormguard cill (disabled access)
- High performance thermal glass

Other door hardware is also available

All our products are made in our own workshop by experienced, skilled bench joiners using highest quality solid wood (no veneers). Many other types of contemporary and traditional doors (and windows) are available see website

# CONTEMPORARY DOORS

doormaker.co.uk

We can make any style of contemporary door from a range of woods. European Oak and Iroko are popular for a natural/stained finish. If you would like a painted finish then idigbo hardwood is used. We offer full factory finishing using the Teknos system, there are many colours available.

There are two main types of horizontal boarded door with variations from each. Horizontal Boarded (HB) Door and Framed Horizontal Boarded (FHB) Door see below. (other styles available)

Many other designs are available please ask

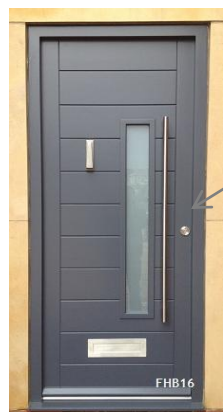

## Horizontal Boarded Doors (HB)

Horizontal boarded doors have horizontal boards running across the whole width of the door

Door thickness 65mm with 35mm insulated core

## Framed Horizontal Boarded Doors (FHB)

Framed horizontal boarded doors have horizontal boards set within two vertical boards

Door thickness 56mm with 25mm insulated core

**Vision Panels** - Both styles can be made with vision panels or without. Vision panels can be in the centre, left or right, clear or opaque glass can be supplied

**Letterplates** - and other ironmongery can be fitted to both door types
